WHY ARE WE GOING?

Hurricane Helene Restore and Rebuild

In late September 2024, Hurricane Helene caused widespread catastrophic damage in Western North Carolina. Through a partnership with On Mission Network, we will be coming alongside to help rebuild, restore and repair homes of those affected by Helene who are either uninsured or underinsured. The damage is so vast that On Mission estimates that they will be working in Western NC until 2034.

On Mission is currently still in its first rebuild phase and in need of skilled and unskilled volunteers to help get people back into their homes in a safe, sanitary and functional way. There will be light to heavy construction and something to do for everyone of all skill levels.
